

Alex Morgan

Full-Stack Software Engineer San Francisco, CA 94105 | gabahuge@fxzig.com | (555) 123-4567 | [linkedin.com/in/alexmorgantest](https://www.linkedin.com/in/alexmorgantest) | github.com/alexm-dev

Professional Summary

Results-driven Software Engineer with over 8 years of professional experience designing, developing, and deploying scalable web applications and cloud infrastructure. Proven expertise in microservices architecture, CI/CD pipelines, and full-stack development. Adept at navigating dynamic startup environments and scaling enterprise systems.

Technical Skills

- **Languages:** Python, Java, JavaScript (ES6+), TypeScript, SQL, Go
- **Frontend:** React.js, Redux, Angular, HTML5, CSS3, Tailwind
- **Backend:** Node.js, Express, Spring Boot, Django, GraphQL
- **Databases:** PostgreSQL, MongoDB, Redis, MySQL
- **Cloud & DevOps:** AWS (EC2, S3, Lambda, RDS), Docker, Kubernetes, Jenkins, GitHub Actions
- **Tools:** Git, Jira, Confluence, Postman, Figma

Professional Experience

CloudScale Technologies | San Francisco, CA *Senior Software Engineer* | January 2023 – Present

- Spearheaded the migration of a legacy monolithic application to a microservices architecture using Java Spring Boot and Docker, reducing system latency by 35%.
- Mentored a team of 4 junior developers, conducting bi-weekly code reviews and establishing best practices for unit testing (JUnit, Mockito).
- Designed and implemented automated CI/CD pipelines using Jenkins and GitHub Actions, cutting deployment time by 50%.

Software Engineer II | March 2021 – December 2022

- Developed and maintained high-traffic RESTful APIs using Node.js and Express, serving over 1M requests daily.
- Integrated third-party payment gateways (Stripe, PayPal) into the core e-commerce platform, ensuring 99.9% transaction success rates.
- Optimized complex PostgreSQL queries, improving dashboard load times by 40%.

AgileStream (Acquired by TechCorp) | Austin, TX *Software Engineer* | June 2020 – October 2020

- Collaborated with a fast-paced agile team to build a real-time chat feature using WebSockets and React.

- Executed seamless transition of core application repositories to the parent company following acquisition.

DataFlow Solutions | Seattle, WA *Backend Developer* | August 2018 – May 2020

- Engineered a scalable data pipeline using Python and AWS Lambda to process terabytes of analytical data daily.
- Set up comprehensive monitoring and alerting systems using Datadog and PagerDuty, reducing mean time to resolution (MTTR) by 25%.

WebWrights Agency | Chicago, IL *Junior Web Developer* | June 2014 – July 2016

- Built responsive, mobile-first client websites using HTML, CSS, JavaScript, and Bootstrap.
- Collaborated closely with the UI/UX design team to translate wireframes into functional web pages.
- Managed database migrations and routine maintenance for client WordPress and Drupal instances.

Education

Master of Science in Computer Science *University of Washington* | Seattle, WA | August 2016 – May 2018

- **Specialization:** Distributed Systems and Cloud Computing.
- **Relevant Coursework:** Advanced Algorithms, Cloud Infrastructure, Machine Learning.

Bachelor of Science in Software Engineering *University of Illinois* | Urbana-Champaign, IL | August 2010 – May 2014

- **Honors:** Cum Laude (GPA: 3.7/4.0)
- **Senior Capstone:** Developed an automated campus-shuttle tracking application used by 5,000+ students.

Internships

TechInnovate Labs | Seattle, WA *Software Engineering Intern* | May 2017 – August 2017

- Developed an internal dashboard using React and Redux to visualize AWS resource spending, identifying \$5,000 in monthly waste.
- Participated in daily stand-ups and sprint planning methodologies.

Projects

- **TaskMaster Pro (Open Source):** Developed a task management web application using the MERN stack (MongoDB, Express, React, Node.js). Implemented JWT authentication and role-based access control. (Link: github.com/alexm-dev/taskmaster)

- **WeatherCLI:** Built a lightweight command-line tool in Go that fetches and formats real-time weather data from the OpenWeatherMap API.

Certifications

- **AWS Certified Solutions Architect – Associate** (Amazon Web Services) | *Issued: Sept 2022*
- **Certified Kubernetes Administrator (CKA)** (Cloud Native Computing Foundation) | *Issued: Jan 2021*
